DESCRIPTION

Join us on this unique trip to the region of Guadix. We will visit the most picturesque villages of the whole territory of the northern part of the province of Granada. We will start with a stop in Alcudía de Guadix, one of the towns in the well-known Zalabí Valley, which has a landscape of contrasts, green valleys with abundant vegetation and the reddish tones of a desert environment. The Roman and Arab presence was also noticeable, given the proximity of the Via Augusta with its constant flow of people and goods and the moments of splendour of the later Arab domination. A good part of the houses in the town are caves excavated in the clayey soil of the area. We will visit the caves of Trópolis, a multi-space for culture, ecotourism and leisure, where you will learn about the culture of the region and the Troglodytic way of life. We will continue to La Calahorra Castle, an impressive fortress characterised by the reddish colour of its walls. The views from the castle with the peaks of the Sierra Nevada in the background are breathtakingly beautiful. Our last visit will be to the village of Tabernas, where we will enjoy a delicious lunch in a restaurant that offers the best local gastronomy of the area and then we will stop in the Almerian desert of Tabernas, a Hollywood film paradise during the intense decades of the 60s and 70s. Singular, beautiful and enigmatic landscapes have been the setting for scenes of legendary films in the history of cinema, such as: Cleopatra, The Good, the Bad and the Ugly, or the adventurous scenes of Indiana Jones.

Our local tour guide will accompany you to Ronda, one of the oldest cities in Spain, with its origins in prehistoric times. We will start our tour walking through the 19th century gardens in the Alameda del Tajo, from where the views are simply breathtaking. We will see the famous Plaza de Toros de Ronda, unique in the world and recognised as one of the oldest and most monumental bullrings, built in stone. After getting a first-hand look at everything behind the scenes, you will have the opportunity to take some pictures from the very centre of the bullring. But that's not all, you will discover the true symbol of the city, the Puente Nuevo, which links old and new quarters of Ronda, from where you can enjoy the great view of the Tajo de Ronda, with more than 100 metres deep. You will also visit the most significant monuments, such as the well-known and beautiful house of San Juan Bosco, a palace in modernist style with some colonial touches and the inclusion of Nasrid decoration, from where the views of the valley are intoxicating. The tour also includes the Old Bridge, the Bridge of Felipe V, San Miguel, with landscapes of extraordinary beauty, and the Church of Santa Maria, built over the old mosque and located in the historic centre of the city, where you can admire the Mudejar tower and the charming "Casita de la Torre", the most representative building of religious architecture in Ronda. You will finish learning about 6.000 years of history in 12 thematic rooms, through your senses, at the Wine Museum of Ronda, where you will enjoy a guided visit to the Bodegas La Sangre de Ronda with a tasting of local wines. Afterwards you will have free time to explore Ronda in the soul of this city on our own before returning to Seville.
