

Etna Excursion & Lunch

Duration: 6 hours

Morning: 08:30 return at 14:30

Afternoon: 14:30 - 20:00

Level: Easy

An enchanting excursion to visit the Etna Park, to immerse yourself in naturalistic places and still maintained in their original status as the numerous Craters and the outbuildings of the volcano most important, in constant activity, of Europe. Flanked by specialized guides, we will explore the areas surrounding the volcano, admiring its ancient and modern history. We will start by showing you one of the oldest lava-scrolling caves, the structure of which is unique; the walls fall overhanging and the condensation of the lava inside the walls makes it damp. The next stop will be to visit two craters of Mount Etna, where you will be shown and explained the craters and formations of rocks and lava terrain; at the end of the tour you will be pampered with the typical products of the area, starting from the sweet, such as honey, to finish at the table tasting our foods at km 0, such as the wine of Etna (Il nerello mascalese), caponata, cheeses and cured meats typical of our rich land.

Equipment required for the excursion:

- Gym or hiking shoes
- Windbreaker.

The fee includes:

- transfer from your hotel,
- Guided
- lunch with typical Sicilian products
- protective helmet for access to the lavic scroll cave.

Duration: 8 ore

Morning: 09:00 return at 17:00

Level: Easy

Sicily is a majestic land, where sea and mountain live in cohesion, allowing you to reach and visit on the same day the coast and the volcanic landscape of Etna.

We will start our tour by visiting Mount Etna, where we will analyze the changing landscape depending on the altitude; During the excursion we will admire the flora and fauna that characterizes this territory.

We will reach an ancient shelter, at 1910 meters altitude, tasting various typical products and at km0, such as honey and different creams.

We will go to the discovery of the oldest craters, dating back to 1892 and observe the lava flows.

We will explore a very characteristic cave of Mount Etna, going inside to admire its structure.

We will taste the typical products of the territory, immersed in a wonderful dining area in the Etna Park.

We will then head to Acitrezza, for a boat ride (a fishing boat), to get up close and see the famous Cyclops Archipelago and visit its main island, Lachea Island, with the opportunity to dive into the wonderful waters of the protected marine area Dell'isola.

Continuing the boat ride, we will observe closely the Faraglioni of Ulysses, born from the primordial underwater activity of Mount Etna, with attached explanation.

We will closely analyze the basaltic formations, characterized by minerals and formed by ancient volcanoes that lie below sea level.
