The **University for Foreigners Perugia** is the oldest and most prestigious Italian institution involved in teaching and research activities as well as in the diffusion of the Italian language and civilisation in all expressions.

INFO

<https://www.unistrapg.it/en>

The **"Francesco Morlacchi" Conservatory of Music** in Perugia is the only State Institution of Higher Musical and Artistic Education present in Umbria with aims of high education, specialization, research and musical production. Founded over two hundred years ago as a Musical Institute, was erected in the Music Conservatory in 1974 and has definitively acquired the status of a university degree institution in 1999.

The **Academy of Fine Arts "Pietro Vannucci"**, founded in 1573, is one of the most active and dynamic High Education artistic institutions in central Italy. Its location in an ancient monumental complex located in the historic center of Perugia, the excellent teacher-student relationship, the presence of well-equipped laboratories and a library rich in ancient and contemporary texts, the presence of visiting professors coming from all the cultural sectors, the synergies established with the other AFAM and university institutions present in the territory as well as its proximity to the other capitals of the central Italian culture, make it the ideally qualitative place for the study and education of art

The **Museum of Academy of Fine Arts** includes: the Gipsoteca, of around 600 plasters, among which remarkable the huge Ercole Farnese, the Damòsseno boxer, the Laocoonte, the Day and the Dawn by V. Danti (from Michelangelo), Cupid and Psyche and the Three Graces by Antonio Canova (original plasters donated by the artist), The Pastorello by Bertel Thorvaldsen; the Gallery contains around 430 paintings, among which are pictures by Annibale Brugnoli, Domenico Bruschi, Armando Spadini, Mario Mafai, Alberto Burri and Gerardo Dottori and a collection of about 12.000 drawings and 6.300 engravings .

BALLOONING IN UMBRIA

Let's see Umbria

from a very special point of view!!!

Balloon Adventures Italy take off in sight of one of the most revered sites in Italy: Assisi.

Mornings are the best time for hot air ballooning. The air is calm, fresh and the land is quiet. Being up in a balloon, drifting quietly is an almost spiritual experience! The flight time is one hour and then they serve a very typical Umbrian breakfast.

Reservation and price on request

CYCLING AROUND THE LAKE

Around the lake in the middle of the Trasimeno park, in the state area.

The dirt path allows you to cross the center of the countries that overlook the lake.

The path is very beautiful; more than a quarter of it (15km) must however be made on a common asphalt road and then traveled also by other means as (the path passes from Castiglione to Sant'Arcangelo).

Total distance: 19 km

Irish-point lace-making was introduced on the "Maggiore" island in the early 1900s by Marchioness Elena Guglielmi, and the local women became so adept at making beautiful pieces that even the likes of the Tsarina of Russia and Queen Margaret wore their fine pieces. In the 1960s the quality of the lace being made was such and the requests so many that several island women decided to turn it into an industry. The Museum on the island displays many of the most beautiful pieces made by these talented ladies, many of whom can still be seen working together in the sun in front of their homes

The Regional Ceramics Museum of Deruta is the oldest ceramics museum in Italy; established in 1898, it displays more than 6000 works and it is housed in the entirely restored 14th-century convent of San Francesco, in the historic centre of the town. The first title "Museo artistico pei lavoratori in maiolica" (Art Museum for Majolica workers), already present in the first Museum catalogue in 1900, suggests us the still contemporary mission of the Museum, that is not only a place for the conservation, but also a model for artisans inspiration.

LOCAL OLIVE OIL MILLS
