

# A HOLIDAY IN NATURE, IN COMPLETE SAFETY

A holiday in Montsalce has always been a guarantee of rest, serenity and peace thanks to the nature of the countryside and the surrounding woods.

To ensure our guests, even in this moment of health emergency, a stay in total tranquility, since April 2020 we have joined the Vademecum **#ValdichiascioSicura**, proposed and promoted by the La Porta dell'Umbria association. (of which we are partners).

**#ValdichiascioSicura** lists all the anti Covid practices that we have put in place in the structure, such as sanitation, the welcome, the stay, the "diary of good practices". It is always available in the structure and you can also ask for a copy when booking.

Our apartments all have independent and separate entrances, private equipped gardens. The large garden and the surrounding countryside naturally guarantee ample space for guests who do not want to give up conviviality and make new friends, but with attention to safety.

We have obtained the certification of "Italian Hospitality, Quality in Safety", a further guarantee of the attention paid by our structure to your peaceful holidays.
