diameter

BIGTOP

Fast and powerful for large fruits

28
fruits/
minute

75 - 90 mm
3 - 3,5 "
diameter

OPTIONS

Stainless Steel Self-Tap

A robust, easy-to-use, stainless steel self-service tap. Especially designed to work in self-service mode in places of high consumption. Easy and intuitive to use, by simply opening the tap, the machine starts the squeezing process. The tap allows filling in continuous or discontinuous mode.

Self-Cleaning System

This option provides a single or double flushing system which cleans quickly the juicing area, saving both time and labour cost.

Pulp-Out Filter & Stainless Steel Self-Tap

This option has been specially designed for self-service mode with high consumption. The Pulp-Out filter allows you to swipe seeds and pulp directly into the waste bin, by just sliding the Pulp-Out sweeper to the side. In a second the filter is clean.

Automatic Double Action Filter & Stainless Steel Self-Tap

New filtering system which transports automatically seeds and pulp into the waste bin to obtain juice of the highest quality. Specially designed for self-service with high consumption.

Juice level detector

System to have always a fixed amount of juice in the tank. When opening the tap, the machine automatically starts squeezing to fill the tank up to the level of the detector.

Squeezing kits S & M

Easily interchangeable kits that allow smaller calibres to be squeezed.

Kit S: 45-60 mm / 1,77-2,36 ”

Kit M: 65-80 mm / 2,55-3,14 ”

Bottle stand

Available in two different versions: With an independent vertical structure and with the structure anchored to the furniture.

Bottle holder

Accessory designed to adapt to the Stainless Steel Self-Tap and allow the filling of bottles without having to hold them.

Water Pump system

The perfect solution for those users who wish to have the Self-Cleaning system but who lack a water intake close to the location of the juicer.

STANDS & COUNTERTOPS

Mini Stand
For moderate consumption.

Mini Countertop
To raise the juicer up to 13 cm/ 5,11 Lbs.

Minimatic

Service Stand
For high consumption in self-service mode.

Service F-Auto Stand
With Automatic Filter to eliminate impurities automatically

Service P-Out Stand
With built-in Pulp-Out Filter to easily remove impurities.

Top - FastTop - BigTop
