

# 3 in 1

Weighing, filtering and blending in a single unit.  
With vertical blender for the production of premix  
for a wide range of food sectors.

**Weighs the ingredient, separates  
air from product during pneumatic  
transport and blends**

**Fast and accurate**

**Hygienic design and easy to clean**

**Delivers a homogeneous mix  
of powders even for quantities  
lower than 1% in 3-5 minutes**

**Optimizes mixing and production  
times**

**Highest flexibility in all food sectors**

**Fully automated and traceable**

**Stainless steel**

**ATEX conform**

functional food

Pet food

Beverages

---

The *3 in 1* (weighing, filtering, blending) weighs the ingredient, separates air from product during pneumatic transport and at last blends, all in single unit. The vertical blender inside is a system for the production of premix that ensures the highest flexibility across a wide range of food sectors.

It is fast, accurate and clean, delivering a homogeneous mix of powders even for quantities lower than 1% in the span of 3-5 minutes. It can dose in the mixer in a single solution or by loss of weight in small batches. The blender is fully automated and optimizes mixing and production times, as the blend is already homogenous before reaching the mixer.

The *3 in 1* can be used in place of the dosing hopper, and its speed makes it very suitable for continuous mixing systems. In installations with multiple lines it can be combined with hoppers to achieve the highest flexibility in production.

Available in sizes from 60 to 1000 liters, it can be loaded pneumatically or by gravity. It is equipped with slide valve and extraction is by with rotary valve or feed screw.

The *3 in 1* is made in stainless steel and is ATEX conform. Hygienic design with total discharge, easy to clean, fully inspectable and washable.

Integrated automation and full traceability.

Bread, pastries, ice cream, pasta, gluten-free products, cereal mix, cereal bars, baby food, functional food, spices mix, instant coffee
