

Servipack Italia srl was founded in **2000**. With thirty years of experience in the market of packaging lines, gained in the world's largest Companies of this field, it is now based in Gaggiano, near Milano City.

Creation, production and implementation of technologies in the packaging industry: these are the major purposes of the company.

With a structure of over 2.000 square meters and the collaboration of highly specialized and constantly updated staff, Servipack Italia srl is a recognized Company in the entire packaging world.

Thanks to the long experience gained over the years, Servipack Italia srl remains very active in this very difficult field and it occupies a leading position in Italy. It has established itself on the International market through its sales network and, above all, his ability to find the right solution for every need in the field of packaging.

Servipack Italia srl is always ready to study any new projects and is able to customize the line according to specific customer requirements.

This makes Servipack Italia srl one of the few Companies able to create machines even on measure. The considerable experience, it's also the recovery of exiting parts of the plant, integrating them within the new commercial proposal.

Different packaging lines are already present on the Italian market, Europe and elsewhere.
