PRODUCT DESCRIPTION

Varvello blazes its trail as a wine vinegar and never ceases to surprise its consumers with its creations. **This vinegar produced by Bellini is a cocktail made from Prosecco DOC and the nectar of white-pulped peaches**, created by the famous bartender Cipriani. This is a first in the world of vinegar and its highly individual bouquet is perfect to create delicate and at the same time intense combinations with cold meat and fish dishes. By the same token, its eclectic character can enhance the flavour of any recipe, even the simplest, for example, a mixture of wild field herbs. Its eclectic character goes as far as the preparation of cocktails with soda and sparkling white wine, gin or vodka, or in a non-alcoholic version, only with soda, just to give a few examples.

PRODUCT INNOVATION

The great Italian wines, such as Barolo, Barbaresco, Pinot Grigio or Prosecco have long been craving for an equally noble vinegar obtained from their vinification. Varvello has tapped into this opportunity, creating **a line of wine vinegars with a unique character in terms of aroma, flavour and versatility in the kitchen.**

ACETO VARVELLO

The Varvello family has been producing vinegar dedicating the same care, attention and procedures for over four generations. We are talking about procedures, such as the selection of raw materials and aging in barrels. Successfully established on Italian and foreign markets since the seventies, Varvello is today, a company that has minimized its environmental impact and has been able to renew itself worldwide, thanks to revolutionary ideas and unique insights into the world of vinegar.
